PROFESSIONAL SUMMARY

BS Computer Science graduate with strong frontend development skills in React.js, HTML, CSS, and JavaScript. Actively expanding into backend development through the freeCodeCamp Back End Development and APIs certification (in progress), with two microservice projects completed using Node.js and Express.js. Contributed to a team-developed final year project in a frontend capacity. Seeking an internship or junior developer role to gain industry experience, deepen full-stack knowledge, and contribute to real-world software projects.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive Web Design

Backend (Learning): Node.js, Express.js, RESTful API Design

Databases: MongoDB (basic), MySQL, SQL

Languages: JavaScript, C++, Python, SQL

Tools: Git, GitHub, Postman, VS Code, WordPress

PROJECTS

Timestamp Microservice | *Node.js, Express.js – freeCodeCamp Back End Certification* | [GitHub](#)

- Built a REST API microservice that parses a date string or Unix timestamp and returns both the Unix and UTC representations.
- Handles edge cases including invalid dates and empty input using Express.js routing and middleware.
- Completed as part of the freeCodeCamp Back End Development and APIs certification (in progress).

Request Header Parser Microservice | *Node.js, Express.js – freeCodeCamp Back End Certification* | [GitHub](#)

- Developed an API endpoint that reads and returns client request header data including IP addresses, preferred language, and software information.
- Applied Express.js request object parsing and JSON response formatting.
- Part of ongoing freeCodeCamp Back End Development and APIs certification (3 of 5 projects remaining).

BAROQUE – E-Commerce Frontend | *React.js, HTML, CSS, Bootstrap, JavaScript* | [GitHub](#)

- Built the complete frontend of an e-commerce web application including product listing pages, shopping cart UI, and navigation using React.js.
- Designed a fully responsive interface using Bootstrap and custom CSS for consistent cross-device experience.
- Note: Backend/API integration was not part of this project; focused entirely on UI and component development.

Automated Content Submission Evaluation System | *React.js – Final Year Project (Team)* | [GitHub](#)

- Contributed to a team-built web application for automated evaluation of video submissions as part of a 4-year BS capstone project.
- Personal contribution focused on frontend development: built React.js UI components including submission forms and result display pages.
- Gained exposure to full-stack project structure and team-based development workflows using Git.

J. Clone – Fashion E-Commerce Frontend | *HTML, CSS, Bootstrap, JavaScript* | [GitHub](#)

- Built a responsive pixel-accurate clone of a fashion e-commerce website, replicating navigation, product grid, and UI components.
- Applied CSS Flexbox, Grid, and responsive breakpoints for cross-device compatibility.

EDUCATION

BS Computer Science

2022 – 2026

Virtual University of Pakistan | CGPA: 2.78 / 4.00

CERTIFICATIONS

- Back End Development and APIs – freeCodeCamp (In Progress – 2 of 5 projects completed, 2025)
- Full Stack Web Development – IDEOVERSITY (2025)
- CCNAv7: Introduction to Networks – Cisco Networking Academy (2023)
- Digital Literacy Certification – DigiSkills.pk (2021)

ADDITIONAL INFORMATION

- Actively expanding backend skills through hands-on API and microservice projects.
- Comfortable with Git-based collaboration and working within development teams.
- References available upon request.
